

**ECOV/SA's Eyelid Surgery and
Cosmetic Procedures: what
optometrists need to know**

Welcome

Hayley Gobell

Early Career Optometrists Victoria South Australia

Program overview

- ❖ Optometry Victoria South Australia update
 - Michelle Marven, Member Services and Policy Manager, OV/SA
- ❖ Ocular Complication and Commercial Cosmetic Procedures
 - Dr Jonathan Kam
- ❖ Droopy Eyelids
 - Dr Charles Su
- ❖ Close and evaluation

Learning objectives

- ❖ Further knowledge in various facial cosmetic treatments currently offered that carry potential ocular risk
- ❖ Recognise adverse outcomes following blepharopigmentation, episcleral tattooing, and cosmetic laser procedures
- ❖ Recognise adverse outcomes following eyelash extensions, dermal fillers and botulinum toxin.
- ❖ To know the causes of ‘droopy eyelids’
- ❖ To recognise the cause in each patient, and avoid missing dangerous underlying conditions.
- ❖ To understand the factors in considering surgical repair of ‘droopy eyelids’

CPD attendance and assessment

- ❖ We will advise all participants tomorrow of the details for completing assessment
- ❖ Presenter slides will be available to support you to complete CPD

Optometry Victoria South Australia update

Michelle Marven, Member Services and Policy Manager

Introducing our first speaker Dr Jonathan Kam

Introducing our next speaker Dr Charles Su

The background is a close-up, high-contrast photograph of a flower, possibly a gerbera, rendered in various shades of blue. The petals are detailed and layered, creating a textured, radial pattern. In the center of the image is a solid, dark blue circle. Overlaid on this circle is the text "Evaluation and Close" in a white, bold, sans-serif font.

Evaluation and Close
