

Optometry Western Australia
2020 Continuing Professional Development Program
Sponsored by Novartis Pharmaceuticals Pty Ltd.

Date Tuesday 10th March 2020
Venue Southwest Eye Surgeons, Bunbury Specialist Eye Centre, 115 Beach Road
Presenters Dr Christopher Low, Dr Peter Heyworth & Dr Lasitha Jayasinghe

Brief hands on teaching sessions with selected patients, providing optometrists with the opportunity to hone their diagnostic skills

Followed by Presentations:

Dr Christopher Low – Adverse Outcomes in Cataract Surgery
Dr Peter Heyworth – OCT Made Easy Part 2
Dr Lasitha Jayasinghe - Recent Updates in Intraocular Lens Technology

The Learning Objectives of this talk are

- Better understand when surgical intervention is needed earlier vs later vs not at all.
- Better understand comorbidity and other factors that may influence the decision to operate.
- Be able to recognise Rarer macular degenerative disorders.
- Be able to recognise Vitreomacular Interface disorders.
- Have a better understanding and knowledge of the recent advances in intraocular lens technology.
- Understand the clinical implications of these advances for day-to-day optometry practice.
